

COMPANY PROFILE

CIVIL, ELECTRICAL & RENEWABLE ENERGY

About **OUR COMPANY**

We are a full service civil, electrical and renewable energy company offering a range of turnkey and specialist civil and electrical contracting works nationally.

Wraptec Engineering Ltd has continued to grow its client base and expand, managing larger and more complex jobs, while retaining its core values and service

Wraptec provides specialized Renewable and civil engineering solutions that seamlessly integrate with all components impacting on the operations of each client's organization

Wraptec's objective is to unlock long-term value and provide engineering solutions that offer a real return-on-investment.

By assessing risk implications, the total cost of ownership, time and production constraints, Wraptec provides focused engineering, procurement and construction management expertise to deliver cost-effective, sustainable solutions, which are technically sound and aligned with the client's expectations.

The company has also expanded and positioned itself in new market segments by specializing in technologies such as renewable energy and energy efficiency.

“

Wraptec recognize that the key to running a successful business is understanding our clients needs and meeting their expectations

”
